

ReachElite High Punch Powercore gen2, eW 200

Date: _____

Type: _____

Firm Name: _____

Project: _____

**3000 K, 100 to 277 VAC, 3°, Native (no spread lens),
UL/cUL, CE, CQC**

High-performance exterior long-throw floodlight with single temperature white light

ReachElite is a premium exterior long-throw luminaire designed to light large-scale outdoor structures ranging from bridges and facades to monuments and skyscrapers. Powerful enough to hit targets up to 564 m (1,852 ft) away with the 300 W luminaire, ReachElite raises the bar for optical control, performance and beam quality in LED lighting. What sets ReachElite apart from the competition is its application efficiency, high punch, and adaptability. ReachElite delivers high-quality white light exactly where you want it. With a 3° native beam angle ReachElite introduces a new level of precision and punch to the premium exterior LED luminaire market.

- High punch—ReachElite's High Punch optical system enables the layering of precise high quality light. Increased application efficacy is realized as a result of high illuminance sources. As a result luminaires can be placed at far greater distances from surfaces to be illuminated. The native 3° beam angle allows for the light to hit targets up to 564 m (1,852 ft) away using the 300 W luminaire, without sacrificing light efficiency or quality.
- Design flexibility—ReachElite is available in three versions: 100 W, 200 W, and 300 W. Each luminaire contains either one, two, or three 100 W heads that can be aimed independently of each other. This empowers lighting designers to utilize multiple applications and beam direction in a single luminaire.
- Flexible field-installed accessories—Choose from a full line of high-quality accessories, from seven different spread lenses, a louver, full and half glare shields, a rock guard, and a slipfitter mount for all ReachElite luminaires. Color Kinetics accessories make project customization simple.
- Integrates patented Powercore technology—Patented Powercore controls power output to luminaires directly from line voltage - rapidly, efficiently, and accurately.
- Application adaptability—ReachElite High Punch excels in a wide range of lighting applications including spot lighting, and wall grazing. Optional secondary accessories combined with easy precise aiming bring ultimate in system flexibility to customize the look and performance of any project. Precision optical system allows for placement freedom.
- Reliable—ReachElite Powercore provides years of reliable use under rugged conditions. ReachElite offers more protection from corrosion by meeting ASTM B117 standard for > 1,500 hours of corrosion resistance and ANSI C136.31 with a 5G vibration rating (3G with Slipfitter mount), and elimination of water pooling on main cover lens and accessories.
- Precision Dimming—Smooth dimming down to 1% with optional Data Enabler Pro and digital control interface.

For detailed product information, please refer to the ReachElite Product Guide at www.colorkinetics.com/global/products/essentialwhite/reachelite-highpunch-powercore-gen2-ew

Specifications

Due to continuous improvements and innovations, specifications may change without notice.

Output

Color Temperature *	3000 K
Beam Angle	3°
Lumens (no spread lens) †	10,036
Efficacy (lm/W) (no spread lens)	56.7
CRI	80.0

Electrical

Input Voltage	100 to 277 VAC, auto-ranging, 50/60 Hz
Power Consumption (Maximum at full output, steady state)	200 W
Power Factor	0.99 @ 120 VAC 0.81 @ 277 VAC
Surge Limits ¶	2 kV maximum differential (L to N) 4 kV maximum common (L to Gnd or N to Gnd)

For additional Surge Protection Requirements for LED Lighting Systems, please refer to www.colorkinetics.com/KB/surge-protection.

Control

Dimmer ‡

On/Off; digital dimming by 4 connector cable & DE Pro

Remote Monitoring & Management Works with Interact Landmark

Lumen Maintenance

Threshold§	Ambient Temperature	Reported ¶¶	Calculated ¶¶
L 90	25 °C	> 44,202	> 44,202
	50 °C	> 44,202	> 44,202
L 80	25 °C	>60,000	>100,000

	50 °C	>60,000	>100,000
L 50	25 °C	-	>100,000
	50 °C	-	>100,000

* Correlated color temperature (CCT) complies with ANSI C78.377-2008 for the chromaticity of solid state lighting products.

† ReachElite High Punch Powercore gen2, eW 4000 K lumen output measurements comply with IES LM-79-08 testing procedures. All 3000 K measurements are estimated based on 4000 K measurements. ReachElite 200 and 300 output measurements are estimated based on ReachElite 100 measurements.

§ Lxx = xx% lumen maintenance (when light output drops below xx% of initial output). All values are given at B10, or the median value where 90% of the LED population is better than the reported or calculated lumen maintenance measurement.

¶ Minimum surge limits per IEC 61547, tested in accordance with IEC 61000-4-5.

¶¶ Lumen maintenance figures are based on lifetime prediction graphs supplied by LED source manufacturers. Whenever possible, figures use measurements that comply with IES LM-80-08 testing procedures. In accordance with TM-21-11, Reported values represent the interpolated value based on six times the LM-80-08 total test duration (in hours). Calculated values represent time durations that exceed six times the total test duration.

Physical

Dimensions (Height x Width x Depth)	344.2 x 702.8 x 406 mm (13.56 x 27.68 x 16 in)
Weight	28 kg (61.7 lb)
Effective Projected Area (EPA)	0.252 m² (2.71 ft²) With full glare shield.
Housing Material	Die-cast aluminium, black powder-coated finish
Lens	Clear tempered glass
Luminaire Connections	Integral male/female waterproof connector

Temperature Ranges

-40 to 50 °C (-40 to 122 °F) Operating

-20 to 50 °C (-4 to 122 °F) Startup

-40 to 80 °C (-40 to 176 °F) Storage

Vibration Resistance

ANSI C136.31 with a 5G vibration rating (3G

with Slipfitter mount)

Mechanical Impact IK09 (IK10 with Louver or Wire Rock Guard accessory.)

Corrosion Resistance

Complies with ASTM B117 standard for > 1,500 hours

Humidity 0 to 95%, non-condensing

Thermal Protection enabled
