The Albeo® ALV series Gen 2 LED luminaire is an energy-efficient, cost effective linear led "strip" fixture for a variety of commercial/ industrial, low bay and stairwell applications. This product can be matched with Daintree® motion, daylight and wireless controls from stand alone operation, zone based control or fully networked solutions for increased energy savings. ALV2 is designed for total cost of ownership over the product lifetime. Drivers are designed with 10 year, 100,000 hour components, where a B0 failure rate (designed for zero failures at ten years) can be expected.
