Track Section End View

**Specifications/Features****Track**

Versatile 2-circuit, 120V rated commercial grade track sections. 40 amp capacity; 20 amps per circuit. Two (2) hot conductors and one common neutral.

Split lighting loads over one run of track for higher wattage output per running foot of track.

Change lighting effects by simply applying fixtures to desired circuits and utilize separate switching.

Track has solid copper conductors with Noryl® insulators placed in heavy 14 ga. extruded aluminum channels.

Mechanical polarity with a visual indicator simplifies installation and mounting of fixtures while assuring proper electrical connections. All Con-Tech track fixtures have two position contacts to access either circuit.

Toggle bolts supplied for simple surface installation.

Set of shims supplied (1 per foot of track) to lock fixture contacts into second circuit position.

Nominal length track sections can be cut in the field for exact fit.

Strong "H" design construction.

Track sections may be mounted within Con-Tech's Recessed Track Housing System to minimize appearance.

Mounting accessories available for T-Bar clips, stems, threaded rods, and aircraft cable.

All track sections are supplied with two insulated end caps.

**Warranty**

Track is covered by Con-Tech's one (1) year full replacement guarantee after date of installation.

**Listing**

cULus listed for dry locations.

**Ordering Information**

Example Order: **LT** -  -
